

## Remote Simultaneous Interpreting

**The best way to make meetings, conferences, or events of any size accessible to a multilingual audience.**

Remote Simultaneous Interpretation (RSI) is the latest interpreting technology and is revolutionizing the world of interpreting. It is considered the best solution for simultaneous interpretation at web conferences and online meetings in which several foreign languages are spoken.

### SEPROTEC'S RSI WORKS FOR ANY MEETING OR EVENT:

Powered by a cloud-based platform, RSI **combines high quality with considerable time and money savings** when compared to traditional simultaneous interpretation.

- | Conferences
- | Panel Discussions
- | Seminars
- | Online Meetings
- | Webinars
- | Press Conferences
- | Workshops
- | Board Meetings
- | Executive Committees

- 📎 Through our trusted partners, used by EU institutions at multilingual events, we provide a **web platform** that replaces a traditional meeting space.
- 📎 While the platform can be used on its own as a substitute for an interview room, the most prominent feature is the **integration of simultaneous interpretation**, allowing participants to hear each other in a language they understand.
- 📎 The platform also allows you to share documents and presentations and has a **built-in chat** for participants to interact during the meeting.
- 📎 All you need is a laptop and a smartphone. **No additional software or equipment is necessary** as participants can **join via direct link** from their own device.
- 📎 Interpreters work on laptops with a browser interface and are connected to the meeting, **providing interpretation for all participants**.
- 📎 For security, the session can be **recorded and securely stored** following your specific requirements.

**Benefits of a remote interpreting service:**

- Designed for situations in which speakers, delegates and interpreters cannot travel
- No need for infrastructure, costly monthly subscriptions or expensive software licenses – just click on the link or download an app and you're ready to go
- Can support any number of speakers, interpreters or languages
- Share presentations and chat with users
- Flexible and scalable – events can be arranged on short notice, sometimes within a few hours!
